

SAFE ASBESTOS SOLUTIONS SDN BHD

We always take care to ensure we comply with global standards. This also means ensuring consistent compliance with our principle, which is the basis of all we do.

Our Sustainability initiatives and ESG compliance standards are related to our roles in saving the planet such as reducing carbon emission, create more social impact solutions such as job opportunity and employee relations. Our industry need to be having economic eco-system that brings prosperity to all businesses, and therefore we support our suppliers, partners and investors to bring values of ESG to the local community and abroad. Our focus SDGs are no from the 17 UN SDGs. Our best practices are (1) Awareness to companies and public on dangers of asbestos containing materials at workplace and household, (2) Taken a course that is focused on or related to sustainability (in its social, environmental, or economic dimensions), (3) Contact an elected official or other representative, (4) Turn off lights when not in use (5) Use a reusable water bottle, coffee cup, or travel mug, (5) Reported leaky areas (6) Washed only full loads of laundry, (7) Print double-side, and (8) Limit time in the shower to 5 minutes or less.

Our Thought on Sustainability

Concern about organic waste after production and organic waste to the landfill. Other initiatives are as follows:

- Purchase from local suppliers,
- Apply digitalisation,
- Logistic and transportation,
- Local Procurement
- Concern about carbon emission, Concern about water wastage, saving electricity, plastic, paper, recycling, waste to wealth, used carton boxes, used bottles or glass, and chemicals,

Marketing Campaign

Everything we do is driven by our purpose to change the way world experiences Everything we do is driven by our purpose to address

- issue of climate change
- attitude about the current environmental problems

-
- global warming,
 - issues that harm ecosystem
 - issues that harm future generations of people.

ESG COMPLIANCE & REPORTING

Very Important in Sustainability

Waste Reduction & Recycling (waste minimization, separating recyclables from trash, purchasing recycled and recyclable products), Water Resources (water consumption, water pollution), Education & Outreach (sustainability literacy, courses, programs, research), Grounds, Open Space & Conservation Areas (litter, trees, landscaping, trail systems), Energy & Buildings (green buildings, LEED, energy efficiency projects), Climate Change (renewable energy, reducing carbon footprint, achieving carbon neutrality), Environmental justice (preventing disproportionately negative environmental impacts based on race, gender, social or economic status.), and Sustainable Purchasing (procuring goods and services that are more beneficial to the environment)
