Outstanding Achievements: Malaysia GPM Sustainability Awards - A Closer Look at the Statistics

The Malaysia GPM Sustainability Awards, organized by SustNET, has been a catalyst for recognizing and honoring exceptional sustainability initiatives across different categories. By analyzing the statistics from previous years, we can gain valuable insights into the growth and impact of sustainable practices in Malaysia. Let's delve into the numbers and understand the significant achievements of the Malaysia GPM Sustainability Awards in 2021 and 2022.

Table: Malaysia GPM Sustainability Awards Statistics

Awards Category	2021	2022
Project of the Year	11	32
Sustainability Award	42	57
Fundamental Award	59	16
Special Recognition for Leadership	11	20
Total	121	125

The table above presents the statistics for the Malaysia GPM Sustainability Awards in 2021 and 2022. Let's examine each category in detail:

1. Project of the Year

The Project of the Year category recognizes outstanding sustainability projects that demonstrate innovation and positive impact. In 2021, the awards program received 11 exceptional entries, showcasing the dedication of participants to driving sustainable project development. The subsequent year witnessed a substantial increase, with 32 impressive entries, signifying the growing interest and engagement in sustainable project initiatives.

2. Sustainability Award

The Sustainability Award honors individuals, organizations, or business leaders who display exemplary leadership in sustainability efforts. In 2021, the awards program received 42 nominations, recognizing the outstanding commitment and contributions made by these nominees to sustainable practices within their respective fields. In 2022, the number of nominations further increased to 57, reflecting the growing recognition of sustainability leadership and the desire to promote positive change.

3. Fundamental Award

The Fundamental Award celebrates organizations that prioritize sustainability by integrating it into their core values and operations. In 2021, a remarkable 59 organizations were acknowledged for their comprehensive sustainability practices. These participants demonstrated a commitment to embedding sustainability into their business models. The subsequent year saw 16 organizations being recognized, representing those who continue to drive sustainability through their fundamental practices.

4. Special Recognition for Sustainability Leadership

The Special Recognition for Sustainability Leadership category acknowledges individuals who have demonstrated exceptional leadership in advancing sustainability efforts. In 2021, 11 individuals were honored for their visionary approach and significant contributions to the sustainability landscape. In 2022, the number increased to 20, highlighting the growing recognition of the crucial role played by sustainability leaders in inspiring others and fostering sustainable change.

These statistics demonstrate the continuous growth and impact of the Malaysia GPM Sustainability Awards in encouraging individuals and organizations to actively engage in sustainable practices. By recognizing and celebrating outstanding achievements, the awards program inspires a collective effort towards building a sustainable and prosperous future for Malaysia.
