

BUGSYKIDZ CREATIVE HUB

We always take care to ensure we comply with global standards. This also means ensuring consistent compliance with our principle, which is the basis of all we do.

Our Sustainability initiatives and ESG compliance standards are related to our roles in saving the planet such as reducing carbon emission, create more social impact solutions such as job opportunity and employee relations. Our industry need to be having economic eco-system that brings prosperity to all businesses, and therefore we support our suppliers, partners and investors to bring values of ESG to the local community and abroad. We support the 17 UN SDGs. (1) Conscientiously choose food based on its environmental impacts (local, seasonal, organic, or less meat, etc), (2) Taken a course that is focused on or related to sustainability (in its social, environmental, or economic dimensions), (3) Turn off lights when not in use (ex. when leaving a room), (4) Use a reusable water bottle, coffee cup, or travel mug, instead of single use options, (5) Washed only full loads of laundry, (6) Limit time in the shower to 5 minutes or less, (7) Shop in a second-hand store or online sites such as eBay, Craigslist, or Facebook Marketplace (e.g., clothing, furniture, appliances).

OUR PRODUCTS

Health / Medical /
Alternative Healthcare
Recycled Goods / Recycle
Gifts / Cultural Products

 - Training & Development
 - Health & Safety
 - Organisational Learning
 - Procurement Practices
-
- Manpower Planning
 - Salary & Compensation
 - Halal Standards
 - ISO Standards
 - Cost cutting processes

Our Thought on Sustainability

- Purchase from local suppliers,
 - Logistic and transportation,
 - Local Procurement
 - Concern about carbon emission, water wastage, saving electricity, plastic, paper, petrol, recycling, waste to wealth, waste cooking oil, used carton boxes, used bottles or glass, chemicals, organic waste after production, organic waste to the landfill, waste to fertiliser, reselling used products, and changing used products into another products
-
- Apply digitalisation,

Marketing Campaign

Everything we do is driven by our purpose to change the way the world experiences and we consider **very important** to look at the issues below:

- issue of climate change
- global warming,

- issues that harm ecosystem
- issues that harm future generations of people.
- attitude about the current environmental problems

ESG COMPLIANCE & REPORTING

Very Important in Sustainability

Grounds, Open Space & Conservation Areas (litter, trees, landscaping, trail systems), Waste Reduction & Recycling (waste minimization, separating recyclables from trash, purchasing recycled and recyclable products), Water Resources (water consumption, water pollution), Energy & Buildings (green buildings, LEED, energy efficiency projects), Climate Change (renewable energy, reducing carbon footprint, achieving carbon neutrality), Environmental justice (preventing disproportionately negative environmental impacts based on race, gender, social or economic status.), Food & Food Waste (sustainable dining options - local, organic, community-based and third-party verified, reducing food waste), Sustainable Purchasing (procuring goods and services that are more beneficial to the environment), and Education & Outreach (sustainability literacy, courses, programs, research).
